COMPANY OVERVIEW

yamko United Contracting Company was established in the year 1400 H, with extensive experience spanning several years in various fields. It is considered one of the national institutions operating in the field of general contracting, aiming to provide the highest levels of service and performance in the execution of government projects assigned to it. This is achieved through the acquisition of the best human resources and the expedited completion of tasks.

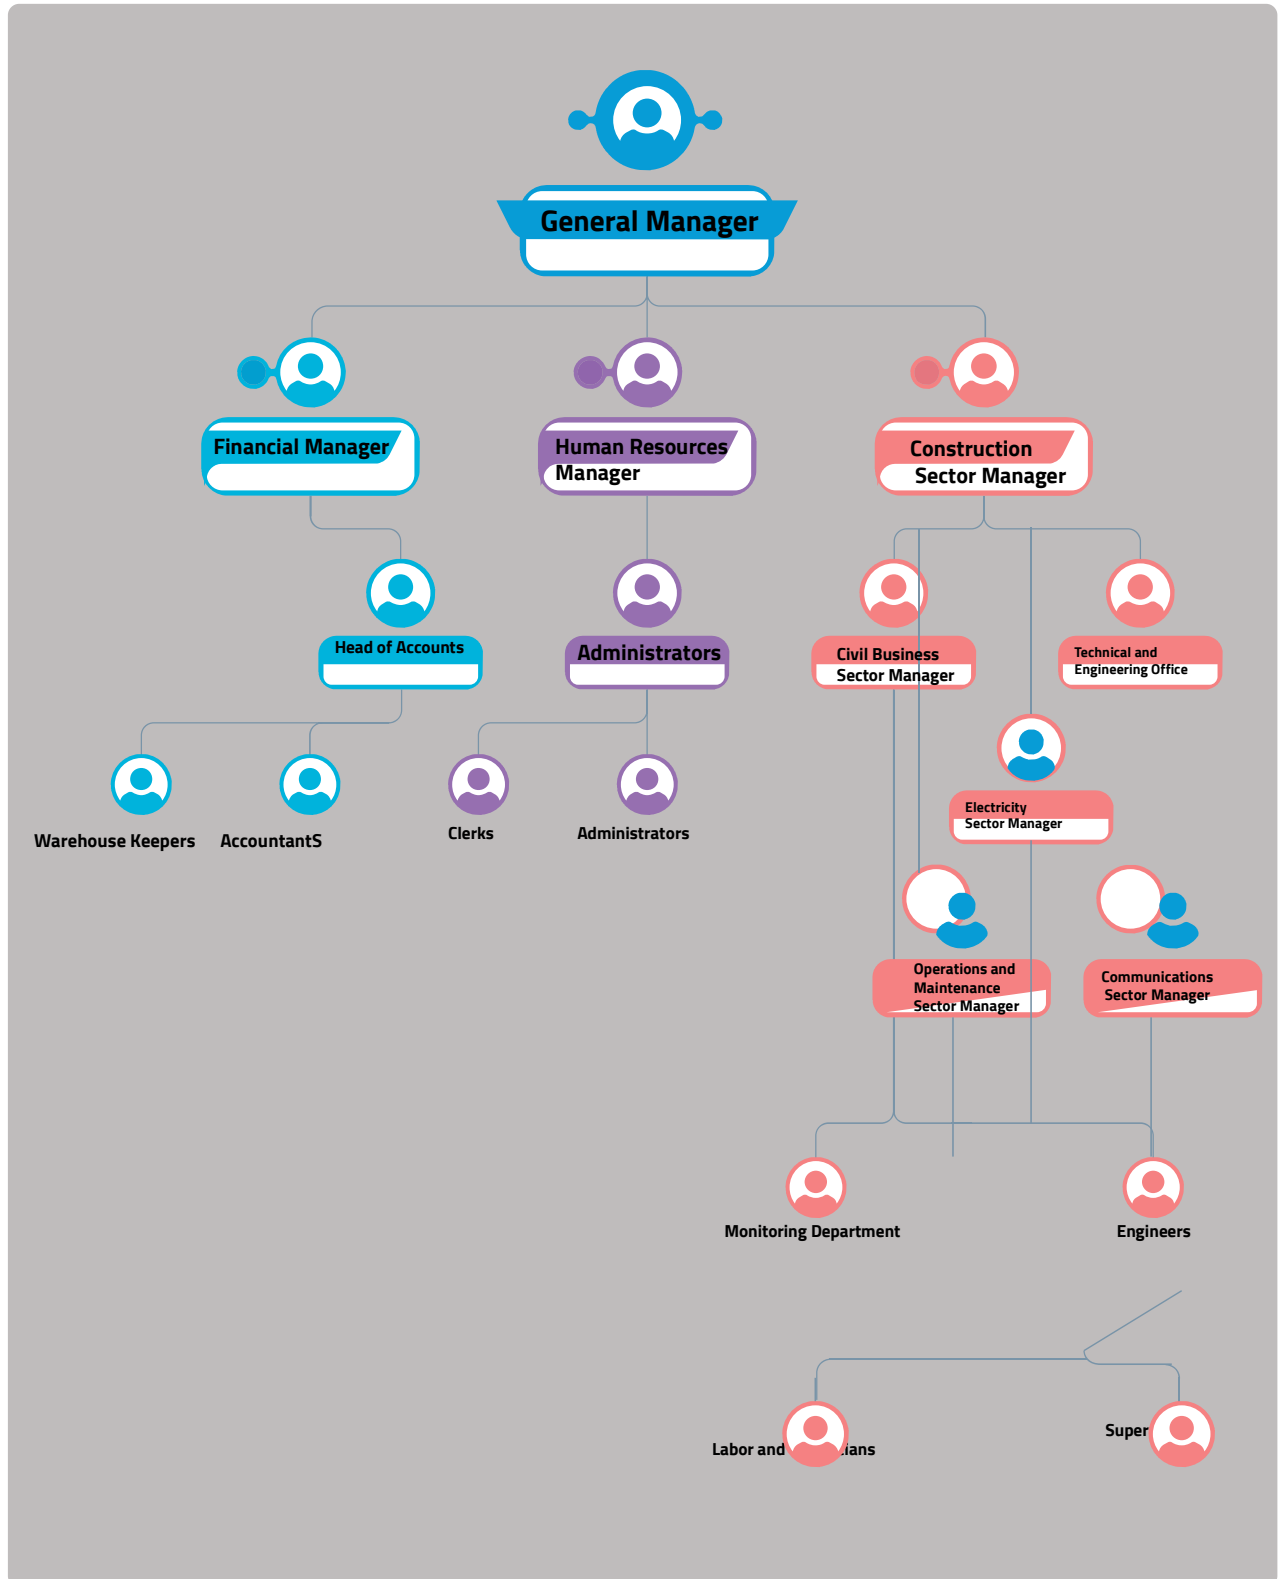

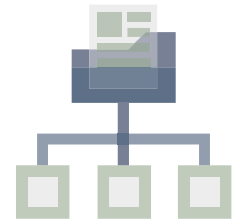

yamko United Contracting Company is a unique model for project execution in the contracting sector, as it seeks to build a solid nucleus capable of dealing with all types of contracting projects. It contributes to the aspirations and directions of infrastructure projects within the Kingdom of Saudi Arabia.

Its primary goal is the development and delivery of the best services for its clients, with the hope of building bridges of trust between the company and its clients. We are delighted to provide a brief overview of yamko United Contracting Company, with our best wishes for the success of all our endeavors and clients.

The ambition of yamko United Contracting Company for construction and trade knows no bounds, as it is based on scientific, engineering, and professional foundations

02

Organizational Structure

03

Our field of business

Our business activities encompass private and government contracting as well as voluntary organizations, including:

- **General construction and maintenance of buildings.**
- **Waterworks, water supply, sewage networks, and station construction and maintenance.**
- **Road and bridge construction and maintenance.**
- **Electrical and mechanical works.**
- **Maintenance, cleaning, and operation services.**
- **Dam construction and maintenance.**
- **City cleaning and waste disposal.**
- **Sports field construction and maintenance.**
- **Telecommunications and maintenance.**

04

Our motto

**yamko United Contracting and Trading Company
looks forward to....**

**"to apply value engineering and quality standards
during project execution, as it believes in the importance
of educating its clients and providing them with advice
and guidance to maximize the benefits of their projects.**

Our employees' motto is...

**Our goal and our clients' goal are one, and we all work
hand in hand to achieve the desired dream within the
allocated budgets, with high quality and outstanding
success, to elevate the banner of our kingdom**

05

Our vision

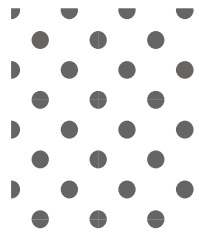

yamko United Contracting Company aspires to become the leading institution in the field of construction companies within the beloved Kingdom, contributing to the development of the construction sector. Additionally, yamko United Contracting Company aims to become a global and pioneering company that prioritizes human resources, health, safety, and environmental issues.

yamko United Contracting Company looks forward to leading project management, whether in the public or private sector, in all industrial, commercial, and housing fields. We use state-of-the-art construction equipment and modern technology in execution, along with specialized project management programs.

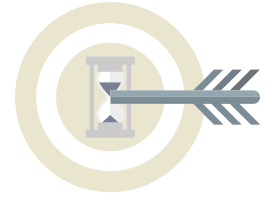

We manage and execute our projects with our dedicated team, who represent the main pillar of success. We continuously invest in their training, development, and localization of their expertise, enabling them to achieve the desired goals.

Our primary objective is to satisfy our clients and earn their trust by ensuring the highest levels of quality and precision in project execution. We place the utmost importance on safety and professional standards in our execution, while also preserving the environment

06

The objectives

The objectives of yamko United Contracting Company are as follows:

- 1. To successfully complete various government and private contracting projects with high quality and cost-efficiency, within record time.**
- 2. To contribute to the development and improvement of the construction industry.**

Specifically:

- First: To enhance the company's performance in project completion according to the planned schedule.**
- Second: To innovate new construction methods that meet people's needs for security, aesthetics, and competitive pricing in housing, to keep up with population growth and urban development.**
- yamko United Contracting Company strives to achieve these objectives while placing significant emphasis on human resources, health, safety, and environmental requirements.**

07

values

Excellent Performance: We strive for excellence in every task we undertake, no matter how small or large.

Employee Development: We encourage continuous learning through training and seek to push our employees to their limits.

Justice and Integrity: We are committed to justice and uphold the highest ethical standards in all our dealings. We take pride in contributing to charitable organizations as an extension of our noble faith.

Team Spirit: We work hand in hand as a united team to achieve our goals successfully.

Safety First: We aim to implement the highest standards in safety, security, health, and environmental protection.

Care: We always take care of our employees, the communities we interact with, and the environments we work in.

Initiative: We promote leadership, innovation, and initiative, as well as the exchange of ideas to achieve continuous improvement in all aspects of our work.

Achievement: We strive for excellence and not only fulfill our promises but surpass them, with the help of God.

08

Our mission

Our mission is for Yamko United Contracting Company to be a leader in the contracting sector, where its goal aligns with the goals of its employees and clients:

(To achieve the highest standards of quality and aesthetic design, precision, and speed in execution at the lowest costs).

09

Electrical Works

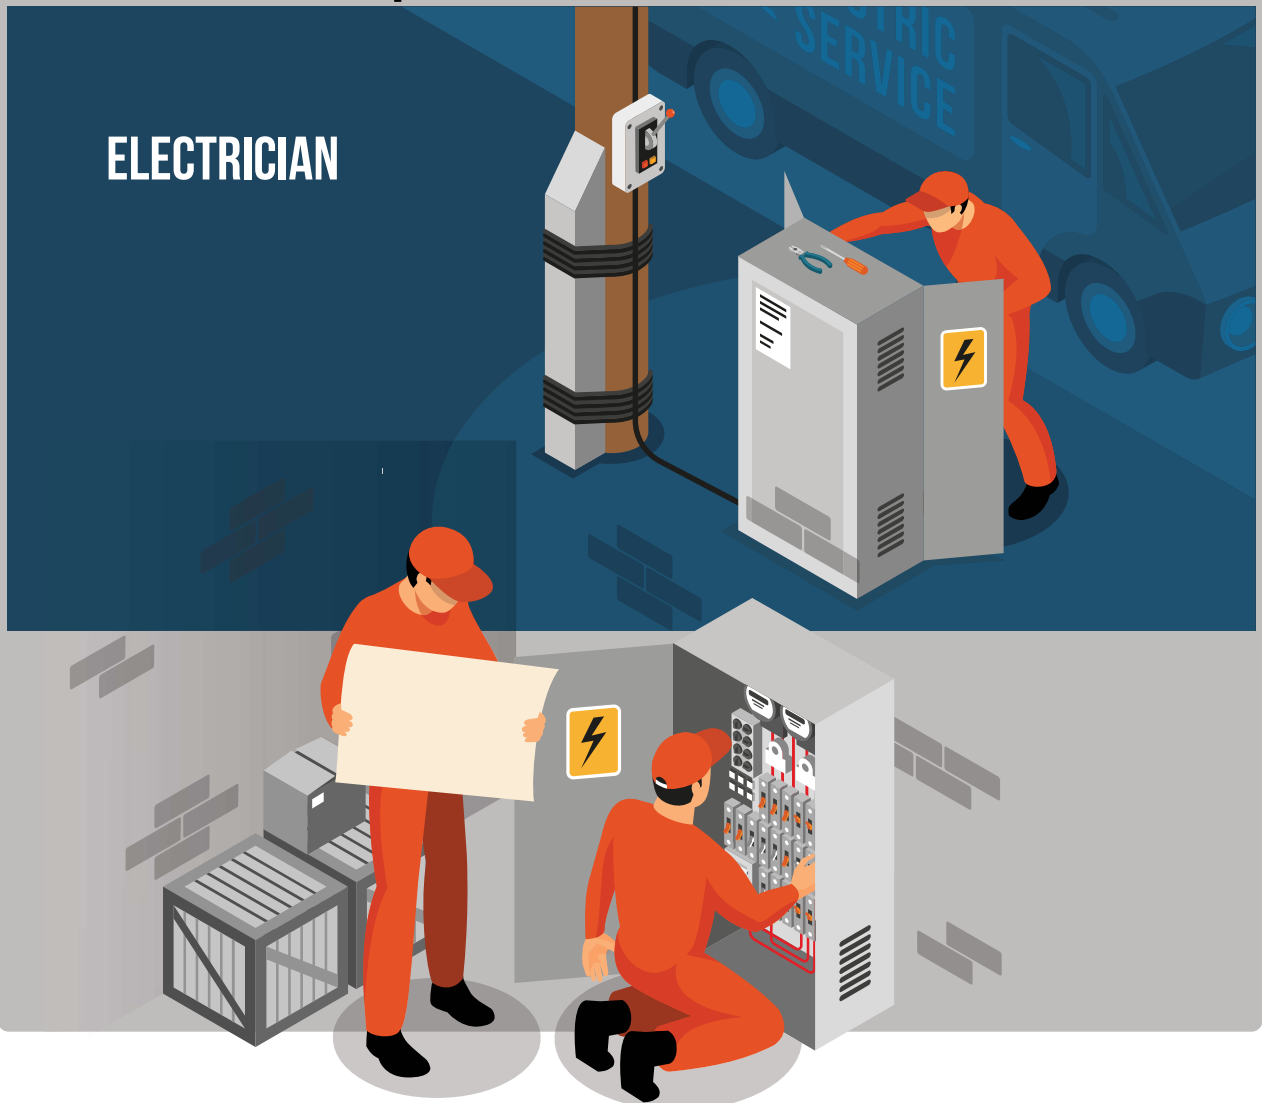

We have specialized and well-equipped teams to carry out all electrical works, including underground cables, overhead networks, maintenance, and electrical meter installations. We execute our work with excellence to meet the needs of our valued clients and industry standards.

Our achievements include

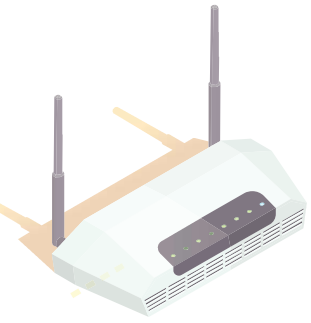

Our achievements include extending underground cables, grounding the components of the electrical network, designing and installing the cable sealing end cap, welding underground cables, whether high, medium, or low pressure, installing cable supports, cable separation, cable testing, transformer installation, and all requirements related to overhead networks and asphalt work.

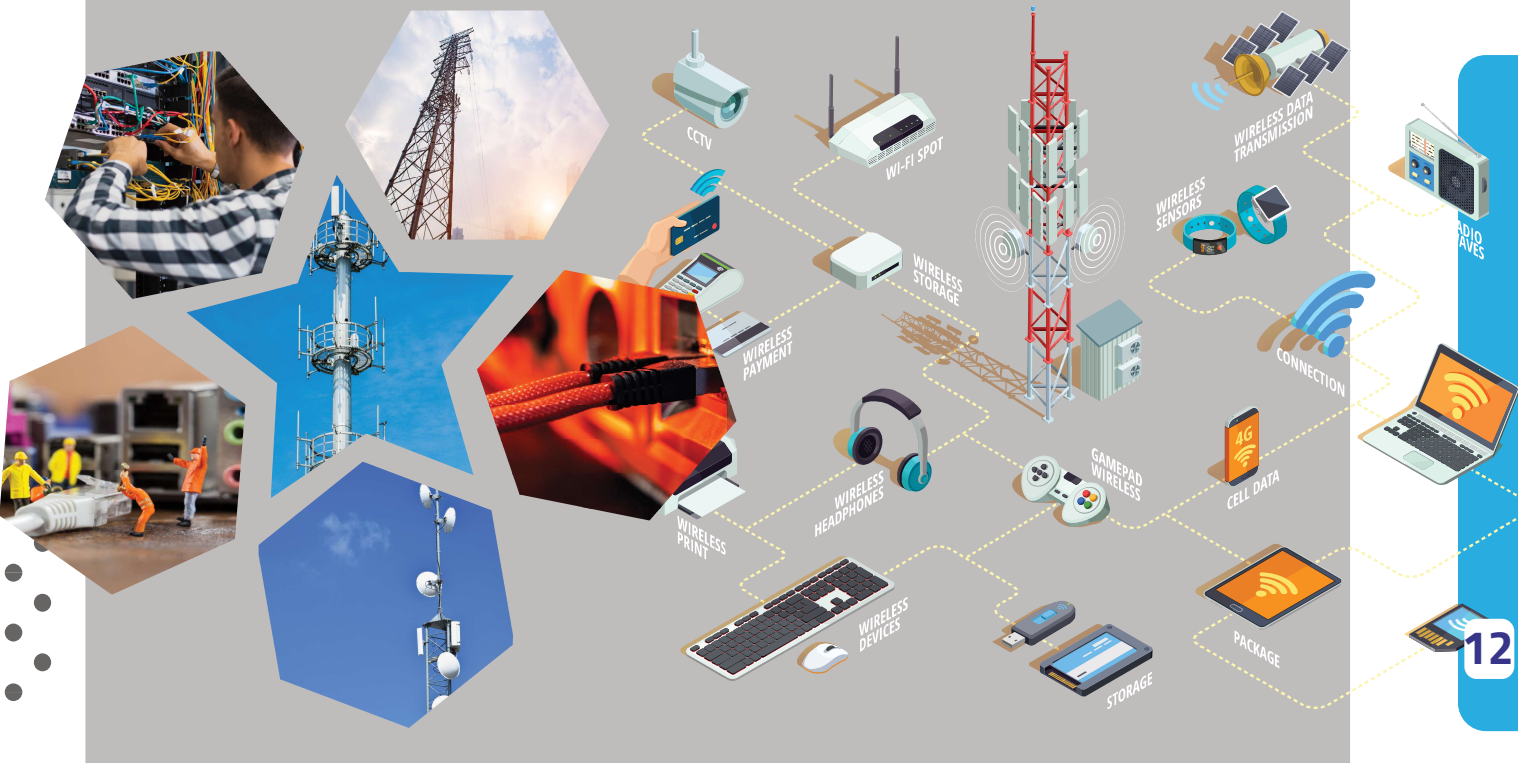

ELECTRICIAN

10

Telecommunications Works

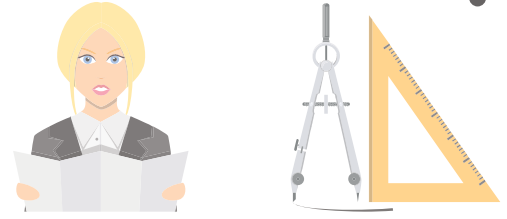

yamko United Contracting Company strives to contribute to and undertake the massive tasks necessary for the development of our kingdom, transforming it into a modern national state. Our company has considerable expertise in the field of telecommunications and civil infrastructure development, including the construction of external facilities, optical fiber cables, primary and secondary copper cable networks, maintenance, supply, installation, and all telecommunications-related projects. We emphasize that we have the capability to provide an integrated and specialized team for telecommunications projects

11

Engineering Designs

We are also considered one of the leading institutions in the field of engineering design and surveying. We have provided our services in planning, design, and construction for many medium and large companies. Moreover, we are among the institutions operating extensively in the field of surveying and configuring the spatial layout. We have utilized our strong expertise in core technologies and engineering project construction and design to expand our activities in the engineering sector.

Artificial Grass **YAMKO**

Supply and installation of rubber flooring and indoor running tracks.
Beautification of fields with artificial grass.
Management, operation, maintenance, and equipment of parks and playgrounds that we have implemented.
Installation of synthetic flooring for multipurpose halls.
Sports field lighting.
Sale of garden and home seating.
Sale of artificial trees and flowers for garden and home decoration.

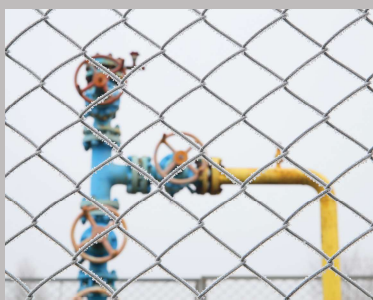

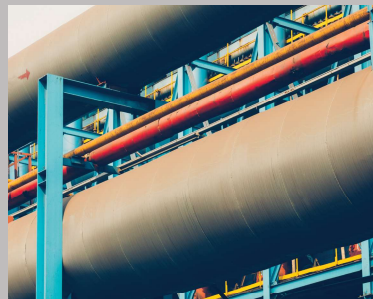

Artificial grass is a form of synthetic fibers that resemble natural grass. This type of grass is commonly used in constructing sports fields with grassy surfaces, such as football, baseball, and field hockey fields. Nowadays, it is also used in public, residential, and commercial areas. The main reason for its widespread use is that it does not require watering and maintenance like natural grass.

13

A brief overview of our other services

We have a well-equipped and specialized team for carrying out water-related projects, including the construction of water networks and sewage systems, as well as the construction and maintenance of pumping stations. We also have experience in building maintenance, school rehabilitation, and dam construction for flood protection, along with safe stormwater management.

14

Occupational Safety and Health

Occupational safety and health is a very important science aimed at protecting workers in factories and workplaces from potential accidents that could cause injuries, fatalities, or damage to the facility's property. This science is based on several standards and requirements that must be followed to ensure our safety and the safety of those around us. As the saying goes, safety is for everyone, meaning it is everyone's responsibility and their cooperation to live in a safe and secure working environment. Therefore, Yamko United Contracting Company is committed to the following general objectives:

1. Protecting human resources from injuries resulting from workplace hazards by preventing accidents, injuries, and occupational diseases.
2. Preserving the material resources represented by facilities, equipment, and machinery from damage and loss resulting from accidents.
3. Providing and implementing all occupational safety and health requirements that ensure the provision of a safe environment for preventing risks to both human and material resources.
4. Occupational safety and health aim to establish safety and peace of mind in the hearts of workers while they perform their tasks, reducing anxiety and panic as they deal with tools, materials, and machinery that may pose risks to their lives under unsafe conditions. This way, safety becomes a way of life.
